A 40-hour course of instruction in Bloodstain Pattern Analysis

This hands-on course is designed to teach the techniques required to recognize, document and examine bloodstain pattern evidence. Upon successful completion of the course, participants are eligible for membership in the International Association of Bloodstain Pattern Analysts (IABPA). Topics covered include:

- Biohazard precautions and proper handling of evidence
- Photography and proper documentation of bloodstains
- Stain diameter and distance fallen/drop volume
- Target surface effects
- Calculation techniques for angle of impact
- Measuring stains and direction of travel
- Impact and castoff patterns
- Techniques to determine the area of convergence
- Hands-on laboratory experiments
- Full mock crime scene final practical exercise

REGISTRATION PROCESS

To register, go to our online registration system: <http://www.leic.tennessee.edu/>

STEP #1: Hover mouse over "Training" in gray area at top of page. You'll click on "Registration" This takes you to the Solution Point home page.

STEP #2: Click "If you do not have a User Name & Password click here" and it will walk you through the process of setting up an account.

STEP #3: After creating an account, it will take you to the home page where you are able to search our catalog.

STEP #4: Click on LEIC Current Courses & find our Bloodstain Pattern Analysis Course.
